

As a Citizen of Indiana, I wish to go on record against proceeding 02-278. Indian has one of the best Do not call laws in the USA. The protection this law provides has made my evenings peacefu; and free at ;ast of tyhe anooying telemarketing calls. There should be no preemption of the Indiana law.  
In fact I suggest that the federal version of this law be modified to the same standard as the Indiana law.
